Section One. Section 3.04.020 of Title 3, Article I, “General Provisions”, of the Davenport Sanitation District Code, “Definitions”, is hereby amended to read as follows:

3.04.020 Definitions. As used in this chapter:

"Applicant" means an individual or agency applying for water service.

"Backflow" means the undesired reverse of the water flow in the drinking water distribution lines. This backward flow of the water can occur when the pressure created by equipment or system such as a boiler or air conditioning system is higher than the water pressure inside the water distribution line (back pressure), or when the pressure in the distribution line drops due to routine occurrences such as water main breaks or heavy water demand causing the water to flow backward inside the water distribution system (back siphonage).

"Board of Directors" means the Board of Directors of the Davenport County Sanitation District.

"Commercial service" means provision of water to premises where the customer is engaged in trade.

"Cross connection" is any actual or potential connection between the drinking water lines and potential sources of pollution or contamination such as a piping arrangement or equipment that allows the drinking water to come in contact with non-potable liquids, solids, or gases hazardous to humans in the event of a backflow.

"Customer" means an individual or agency of record receiving water service from the utility.

"Date of presentation" means the date upon which a bill of notice is mailed or delivered personally to the customer.

"District" means the Davenport County Sanitation District.

"Domestic service" means provision of water for household residential purposes, including water for sprinkling lawns, gardens and shrubbery; watering livestock; washing vehicles; and other similar and customary purposes.

"Engineer" means the district engineer of the Davenport County Sanitation District or his authorized representative.

"Fire protection service" means provision of water to premises for automatic fire protection.

"Mains" means distribution pipelines located in streets, highways, public ways or private rights-of-way which are used to serve the general public.

"Municipal or public use" means provision of water to a municipality or other public body.

"Premises" means the integral property or area, including improvements thereon, to

Ordinance D103

which water service is or will be provided.

"Rate and fee schedules" mean the effective rates, fees, rentals, charges and regulations, as set forth in this chapter.

"Service connection" means the pipe, valves and other facilities by means of which the utility conducts water from its distribution mains to and through the meter, or to the curb stop.

"Temporary service" means a service for construction work, irrigation of vacant property, and similar uses, that because of their nature will not be used steadily or permanently. (Ord. 8 §2.1--2.16, 1983)

Section Two. Section 3.04.260-3.04.270 of Title 3, Article III, "Equipment and Facilities", of the Davenport Sanitation District Code, "Cross Connections- Backflow prevention device requirements", is hereby amended to read as follows:

3.04.260 Cross-connections--Backflow prevention device requirements. This Section shall incorporate the provisions of Title 17 of the California Code of Regulations, as may be amended from time to time and incorporated herein by this reference, to ensure that approved quality of water in every domestic water system is not subject to contamination by cross-connection.

Section Three. Section 3.04.270 of Title 3, Article III, "Equipment and Facilities", of the Davenport Sanitation District Code, "Inspection of Backflow Protective Devices", is hereby amended to read as follows:

3.04.270 Protection of the water supply. The District shall protect the water supply from contamination by implementing a cross-connection control program at the discretion of the Engineer. If the Engineer has evidence to suspect that a cross-connection exists in the water system, the minimum type of protection as set forth in Title 17 of the California Code of Regulations, as may be amended from time to time, and incorporated herein by this reference, shall be provided to prevent backflow into the water supply.

Section Four. Upon adoption, this Ordinance shall be entered in the minutes of the Board and shall be published once within fifteen days following its adoption in a newspaper published in the County and having general circulation in the District. This Ordinance shall take effect on the 31st day after the date of final passage.
